

MORITZ RÖSCH

EDUCATION

today
|
10/2021

- **M.Sc., Applied Earth Observation and Geoanalysis of the Living Environment (EAGLE)**
Julius-Maximilians-University  Würzburg, Germany
- **B.Sc., Geography**
Julius-Maximilians-University  Würzburg, Germany
 - Specialization: Remote Sensing, Physical Geography
 - Final grade: 1,3
 - Member of the Geography Student Council (internal organization, treasurer, first semester advising, institute communication, organization of events and lecture series)

RESEARCH AND WORK EXPERIENCE

12/2022
|
10/2022

- **Intern**
RSS - Remote Sensing Solutions GmbH  München, Germany
 - Development of an automated processing pipeline for mapping bare soil areas at regional scale using Sentinel-2 time series
 - Modeling soil organic carbon content at regional scale based on spectral bare soil composite and LUCAS reference data
- **Research assistant project “Megacities”**
Team City and Society  Würzburg, Germany
German Aerospace Center (DLR)
Chair of English Linguistics
Julius-Maximilians-University
 - Analyzing sociocultural structures in megacities using the spatial distribution of Twitter data
 - Data preparation of Twitter data (implementation of filter methods)
 - Application of geostatistical and linguistic methods

07/2021
|
04/2021

- **Bachelor-Thesis**
Team Natural Hazards  Remote
German Aerospace Center (DLR)
 - Thesis-Title: Monitoring of volcanic natural hazards in Indonesia. Change analyses based on high-resolution PlanetScope data combined with further Earth observation data (in German)
 - Develop new methods for mapping volcanic natural hazards (e.g., lava) based on high-resolution PlanetScope data, infrared data (Sentinel-2, Landsat-8, Terra/Aqua MODIS, Soumi-NPP VIIRS), and digital elevation models

02/2021
|
10/2020

- **Student assistant (tutor)**
Chair of Remote Sensing  Würzburg, Germany
Julius-Maximilians-University
 - Direction and preparation of tutorials for the lecture *Introduction to Geographic Remote Sensing*

BIOGRAPHY

Born on 29.04.1997 in Radolfzell, Germany.

I am passionate about the analysis, evaluation and visualization of geodata. My interests and research focuses on the use of passive and active satellite data for the analysis of geographic processes of the earth's surface, especially the monitoring of natural hazards as well as the monitoring of land surface changes in alpine and urban areas.

Rösch, M.; Plank, S. (2022). Detailed Mapping of Lava and Ash Deposits at Indonesian Volcanoes by Means of VHR PlanetScope Change Detection. *Remote Sensing*, 14, 1168. <https://doi.org/10.3390/rs14051168>

Rösch, M.; Sonnenschein, R.; Buchelt, S.; Ullmann, T. (2022). Comparing PlanetScope and Sentinel-2 imagery for mapping mountain pines in the Sarntal Alps, Italy. *Remote Sensing*, 14, 3190. <https://doi.org/10.3390/rs14133190>

CONFERENCE CONTRIBUTIONS

Rösch, M.; Plank, S. (2022). Combining VHR PlanetScope imagery, HR short-wave infrared data and digital elevation models for mapping of lava flow deposits. Poster. *ESA Living Planet Symposium 2022*, 23.05. - 27.05.2022, Bonn, Germany.

SOFTWARE SKILLS

- **Coding**

R (*advanced*)
Python (*intermediate*)
Google Earth Engine (*intermediate*)

- **Software**

QGIS, ArcGIS, ENVI (*advanced*)
SNAP, eCognition (*intermediate*)
GRASS GIS, SAGA GIS (*basic*)
MS Office (*advanced*)

- **Versionskontrolle**

Git, GitHub (*advanced*)

Research interests

Passive & active remote sensing
Spatial data science
Machine Learning & Deep Learning
Natural hazards
Alpine regions
Synthetic aperture radar
GIS & webmap

LANGUAGE SKILLS

- **Deutsch**

Native language

- **Englisch**

fluent in spoken and written

- **Französisch**

school knowledge

FURTHER EDUCATION

09/2019

- **SAR EDU summer school for applied radar remote sensing**

Friedrich-Schiller-University

 Jena, Germany

• five-day seminar (40 hours)

Made with the R package `datadrivencv` and [pagedown](#).

The source code is available on [GitHub](#).

Last updated on 2022-12-27.

FOREIGN EXPERIENCE

12/2016

- **Stay abroad Asia, Australia, USA**

|

06/2016
